Russland ist nach wie vor ein "Buchriese", der mit seinen etwa 6000 aktiven Verlagen Auflagenzahlen von über 500 Millionen Exemplaren erreicht. Wendezeiten sind immer mit einer Erschütterung vermeintlicher Sicherheiten verbunden, und dazu gehören allen voran Denk- und Sprachmuster: Gewohntes reibt sich an Neuem, denn das "Bist Du echt ein Russe?" Literarisches aus der Wendezeit Neue ist erst halbverdaut - und im gewohnten Alten werden Abgründe sichtbar. Diese Reibeflächen ziehen sich wie ein roter Faden durch die Erzählungen des Bandes - sei es mit ironischer Distanz oder mit tragischen Wendungen. Da wird die kommunistische Hinterlassenschaft genauso angesprochen wie die Fußangeln der Alltagssprache. Die Suche nach neuen Bewältigungsstrategien wird so zu einem Abenteuer mit unsicherem Ausgang, das nicht nur die (pseudo)intellektuellen Protagonisten hineinzieht, sondern auch den sprichwörtlichen Mann auf der Straße. Die hier vorgestellten neuen russischen Autoren leben in Moskau oder St. Petersburg, nehmen aber das gesamte sich verändernde Russland auch außerhalb der beiden Metropolen in den Blick.
