past due spring, the 12 months of our Lord 1370. Owen Archer, ex-soldier and spy, is getting ready to leave Wales, his paintings for John of Gaunt completed. yet his makes an attempt to rearrange secure passage domestic to York are thwarted by way of a mysterious suicide. In York Lucie Wilton is disheartened via her husband's lengthy absence and anxious by way of allegations opposed to her apothecary. Then Brother Michaelo brings frightening news, forcing her to trip to her father's manor outdoor the city. more and more desperate, she accepts the corporate of a stranger, who proves precious once they face danger. Angered via Owen's lengthy absence, conscious of malicious rumours, John Thoresby, Archbishop of York, orders his return. yet Owen's remain within the land of his beginning has created divided loyalties in him. and people who serve the Welsh insurgent chief may have Owen register to struggle and not cross home...

this is often the 7th publication within the sequence that includes the one-eyed hero Owen Archer, and but even supposing this is often the 1st I'm studying within the series, I didn't believe discombobulated in any sense. whereas a few characters are referenced from A Spy for the Redeemer (Owen Archer #7) one other book, and the present characters have evidently elderly more, the occasions happening within the e-book don't have any dependence on any past events. primarily there are mysteries to hand here. One comprises Owen Archer, a Welshman in Wales, within the city of St. David's, the place a stonemason has been murdered for no noticeable reason. the opposite includes Archer's wife, Lucie, who lives in York, the place her aunt's domestic has been attacked via outlaws and the steward heavily injured. Lucie consigns support on the suggestion of a very good friend, who seems to be rather the opposite. These separate plots are made and delve deeper and deeper into secret and intrigue, whereas the risk easily increases. there's additionally a good reason delivered to naked here, concerning Owain Lawgoch, a Welshman who has each purpose of reclaiming his liked state from King James of Britain. Archer is given an ultimatum: subscribe to Lawgoch or return to his wife; the reply comes as no surprise, whereas the enforcing hazard of battle is dropped like final week's news. possibly this subject can be picked up back within the subsequent book, notwithstanding I'm uncertain i would like to spend \$24 to discover out. Originally released on September 16th, 2002. For over 500 booklet reviews, and over forty particular writer interviews (both audio and written), stopover at BookBanter.
