Confessions of a Serial Kisser by Wendelin Van Draanen

Wendelin Van Draanen

EVANGELINE LOGAN wishes a kiss. A spectacular, heart-stopping, lifestyles altering kiss. by some means The pink Kiss (a romance novel she's develop into obsessed with) and 4 Steps to dwelling Your fable (a self-help booklet she's reading) have fused in Evangeline's brain and despatched her on a quest for a kiss. however the route to perfection is paved with many undesirable kisses—the destroy mouth, the ear lick, the “misser.” The word “I don't kiss and tell” potential not anything to the men in her school. And worse: anyone starts off writing her identify and quantity on toilet walls. And worst of all: the boy she's simply kissed seems to be her top friend's new crush. Kissing seems to be far more complex than the romance novels could have you ever think . . .From the Hardcover edition.

Van Draanen, Wendelin. 2008. Confessions of A Serial Kisser. I'm at the fence with Confessions of A Serial Kisser. I enjoyed the hole chapters the place we're brought to the narrator, Evangeline, and trap a glimpse of the premise. a tender youngster girl, who discovers, whereas cleaning, her mother's stash of trashy, smutty romance books. Out of natural interest and with somewhat disdain, she begins them. She starts off through analyzing the blurbs, then progresses to interpreting random passages. yet sooner than long, her cognizance focuses in on one name in particular, A pink Kiss. Delilah and Grayson develop into position models, in a peculiar way, for our heroine because her personal mom and dad are dealing with a separation or divorce. She reads the book--along with many of the others I believe--but it's this one ebook that she retains clinging to. She reads it time and again and again. She even takes it together with her to school. She makes her ally learn it as well. She starts eager for a red kiss of her own. And with a bit concept from a self-help book, she units out to get that kiss, to discover that dreamy guy. it may possibly sound like a foolish premise--and I admit that it's in a way--yet it truly is enjoyable in a giddy-making type of way. i used to be feeling a little bit an Angus, Thongs, and Full-Frontal Snogging vibe for a bit. yet Evangeline has extra personality improvement (more depth, extra growth) during this one novel than terrible Georgia has had in all of these novels placed together. But that's in simple terms the skin of this one. If it was once simply that, fogeys could imagine it enjoyable yet shallow. yet approximately midway in the course of the concentration shifts dramatically over to her dating together with her father. Evangeline has a negative lousy terrible no stable dating along with her dad because the separation. (Her father, I think, cheated on Confessions of a Serial Kisser her mom and left them. And it really is her self-esteem, her feel of safeguard that's pain because of that betrayal.) And it's this angst that's driving--contributing--to the issues in different parts in her life. Evangeline is seeking her pink kiss, yet she's no longer discovering it. She's hopelessly stuck up in issues trivially now not imagining kiss is more, will be greater than Confessions of a Serial Kisser only a kiss. In a few ways, Confessions of A Serial Kisser is not your conventional romance. there is not the conventional boy meets woman plot. (Or woman meets guy.) it's concerning the quest for romance coming from a dissatisfaction with yourself; it is all in regards to the angst, trying to find a person to fill that vacancy inside of you. it truly is approximately now not figuring out fairly what you want, yet understanding that you really want something...need whatever more. All that being said, there have been a few issues that simply did not paintings for

me. The longer I examine Evangeline, the fewer I cared for her. i do know that sounds a piece harsh, does not it? Evangeline is wasting herself, drowning herself during this quest for the ideal kiss. The extra this quest is going on, the fewer recognize we've for her and the fewer admire she has for herself. And there have been a few locations the place the textual content dragged Confessions of a Serial Kisser a bit. it truly is difficult to provide an explanation for really. yet there will be chapters at a time the place i would capture myself skimming paragraph after paragraph and but discovering not anything happening, not anything changing. After part a dozen of these chapters, it really is tough to take care of interest. It all started so well, and but fizzled out a section for me. It has family members drama (father-daughter), good friend drama, and a few boy drama. (Yet the focal point is rarely quite on one man in particular.) I loved the premise--or may still I say premises. It was once enjoyable to determine the normally humorous spin on how unrealistic and foolish yet occasionally invaluable romance novels. It used to be additionally attention-grabbing to determine this father-daughter angst. How her anger, her disappointment, her feeling of loss and betrayal, fueled (or didn't fuel) her relationships with men her personal age. however the concentration is split--and not only in two. The buddy drama...well...I can have kept away from it. The plot used to be busy sufficient with no it. yet possibly others will believe differently. Other reviews: Bookshelves of Doom; What I Blogged: ; Biblio File: and The good learn baby and late Books. First sentence: My identify is Evangeline Bianca Logan, and i'm a serial kisser. i have not consistently been a serial kisser. there has been a time no longer that in the past while I had subsequent to no kissing experience. it truly is fascinating how issues can switch so fast--how you could move from being 16 with only a few lip-locking credentials to being slightly seventeen and a professional serial kisser. it began someday with soiled laundry.
