one in all Barron's hottest and attractive photograph books with shock photo flaps for child is now to be had in a brand-new Spanish-language version that enhances its English-language version. a special animal seems to be on every one page, its face lined peek-a-boo-style through a wide photo flap. whilst mother or Dad swings the flap open for child to see, the pleasant animal exhibits its smiling face. The " Peek-a-Boo " e-book indicates a cat, a dog, a cow, a hen, a pig, a duck, and a lamb on every one successive page. at the final page, it really is child himself who hides his face--then seems to be with a grin whilst the peek-a-boo flap is lifted. A significant other publication " Peek-a-Boo Jungle ," is additionally on hand from Barron's in either English and Spanish language editions.

it is a lovely lift-the-flap ebook that includes assorted animals on every one page, and the final web page encompasses a child protecting its face, and while the flap is opened, there's a "mirror" so child or youngster can see his or her personal face. youngsters could have enjoyable naming the animals. I used this for a cat-themed Spanish tale time program.
