
The book cover features a dark, textured background with a collage of stylized, colorful illustrations of butterflies and birds. The butterflies are in shades of pink, orange, and yellow, while the birds are in shades of grey and white. The illustrations are scattered across the cover, creating a sense of movement and natural beauty.

FAITH, SCIENCE & UNDERSTANDING

JOHN FOLKINGHORNE

Knowledge and Understanding : Themes in the Study of Science and Theology

J.C. Polkinghorne

during this work, essentially the most Knowledge and Understanding : Themes in the Study of Science and Theology very hot scientist-theologians of our time explores the interplay of technology and theology. John Polkinghorne discusses the function of revelation in faith as a Knowledge and Understanding : Themes in the Study of Science and Theology sound list of expertise and never the conversation of unchallengeable propositions. A significant drawback is Knowledge and Understanding : Themes in the Study of Science and Theology to reconcile theology's trust in a God energetic inside construction with what technological know-how can say in regards to the procedures of the universe. the writer examines comparable strategies in depth. the 1st is the belief of divine self-limitation in creation, which ends up in a major reappraisal. the opposite is the character of time and God's involvement with it, a subject matter that Polkinghorne exhibits can heavily hyperlink contemporary advancements in technological know-how and theology. within the ultimate component to the book, the writer offers a short evaluation of the technological know-how and theology debate and assesses the paintings of significant modern individuals to the discussion: Wolfhart Pannenberg, Thomas Torrance, and Paul Davies.
