All Alby wishes is an honest espresso and an afternoon off. yet there is a hijacked tanker with a dangerous shipment in Sydney Harbour, and bullets are flying on board a US army cruiser. 3 sailors are useless and a Seahawk chopper is missing. Who's in the back of the mayhem? Why is the govt motive on shutting down Alby's investigation? what is the connection to the smooth-talking Reverend Priday, non secular chief to the upwardly mobile? and will Alby belief Lieutenant Kingston, a guns expert with the longest legs he Sensitive New Age Spy (Alby Murdoch #2) is ever visible on a sailor and never a tattoo wherever on her attractive body? targeted agent Alby Murdoch, reluctant hero of the riotous D-E-D Dead!, is correct again within

the thick of items in one other hilarious, page-turning romp.

Alby Murdoch, (acting) head of D-E-D (Directorate for Extra-territorial Defence), one other Australian nationwide safeguard acronym, awakes with a hangover at the Australia Day public holiday. His beautiful paintings associate Julie, who hasn't ever replied to his lusty advances, is chastely asleep on his lounge. Alby however, remains to be hopeful. it is a public vacation and also you by no means comprehend what the day may possibly bring. The final thing Alby wanted is for an 80,000 tonne rogue tanker to have covertly snuck into Sydney Harbour below the canopy of darkness, probably crammed to the eyeballs with Liquified average gasoline (LNG). Potentially, it's a floating atomic bomb. Compounding the danger, is an American army Cruiser parked nearby, that may, or is probably not sporting a number of nuclear warheads. Despite being warned off the case by means of the Minister of Defence via his minion Chapman Pergo, Alby smells a rat and doggedly keeps together with his investigations. This leads to a few riotously humorous liasons with the very (rich) Reverend Priday and his most enticing younger spouse or even extra beautiful daughter, a few whale-loving fundamentalists and a lesbian bikie's birthday celebration in Canberra. all through which Alby is almost blown-up, shot at and brought hostage. My suggestion is that you just don't learn this ebook in public when you are embarrassed through unexpected outbursts of spontaneous laughter. The humour infuses each web page and McGeachin cleverly is aware the Australian irreverence to politicians, tall poppies and themselves. whilst this laconic humour is wrapped round a captivating, espionage plot, the result's a completely stress-free learn and person who may have you speedy looking for extra Geoffrey Mcgeachin books. i am googling as we speak!
