"For the curious baby who easily needs to comprehend HOW? " From the authors of the ingenious "The Book of Why" comes a book chocked with nice solutions to difficult questions: How do rainbows form? How am i able to inform my mom and dad i am getting scared after they yell at me? How do we aid the poor? How do damaged bones heal? How am i able to persuade my mom that games wont make me stupid? those and eighty different questions are thoughtfully spoke back during this well-researched book.
